Summary

Java Full-Stack Developer skilled in designing and developing scalable, responsive web applications. Proficient in HTML5, CSS3, JavaScript (ES6+), React.js, Core Java, JDBC, Servlets, JSP, and MySQL. Experienced with Spring Boot, MVC architecture, and RESTful APIs for building robust server-side applications. Strong in debugging, performance optimization, and writing clean, maintainable code. Familiar with Agile methodologies and collaborative team environments. Adept at integrating front-end and back-end services to deliver user-focused, innovative solutions.

Projects

Job-Portal Full Stack Web App │ *Live-Demo*
- Developed a full-stack Job Portal using **React.js**, **Java Spring Boot**, and **MySql**, enabling recruiters to post jobs and candidates to apply seamlessly.
- Built and integrated **RESTful APIs** for job listings, applications, and profile management.
- Implemented role-based authentication and authorization with **JWT** for secure access control.

Food Delivery WebApp │ *Live-Demo*
- Responsive Design using **Tailwind CSS** for seamless experience on desktop, tablet, and mobile.
- **Component-Based Architecture** using **React hooks** and state management for clean code and reusability.
- Created dynamic shopping cart functionality with add/remove items, quantity updates, and live price totals.
- Implemented category-based product filtering and intuitive navigation for enhanced user experience.

RJ Technology - IT Services Website │ *Live-Demo*
- Built and deployed a fully responsive, single-page application for an IT solutions company using **React.js** and **Bootstrap**.
- Optimized for **cross-browser** compatibility and mobile-first design, ensuring smooth performance on nall devices.
- Developed modular, reusable components to ensure scalable code architecture and maintainability.
- Utilized **Git** for version control, with clear commit history demonstrating feature development and bug fixing.

TECHNICAL SKILLS

Front End Development: HTML5, CSS3, JavaScript (ES6+), React.js, JSX, TailwindCSS, Bootstrap
React-Ecosystem: React Hooks, React Routers, Context API, Component-Based Architecture, State Management
Design Principles: Responsive Design, Flexbox, CSS Grid, Media Queries, UI/UX Principles
Tools & Technologies: VS Code, Chrome DevTools, NPM, Vite, Git & Git-Hub, AWS, Docker, Jira, Postman
Back End: SQL, Java, OOPs, JDBC, Servlets, JSP, MVC Architecture, RESTful APIs, Hibernate(ORM), Spring Boot, Microservces, JWT
Other Skills: Agile/Scrum, Debugging, DSA, Problem Solving, Excellent Communication, Unit Testing

Education

FMKMC College, Mangalore University	Madikeri, Karnataka
Bachelor of Computer Applications	*2021 – 2024*
Aruna Pre University College	Madikeri, Karnataka
Commerce in GEBA	*2019 – 2021*
Aruna Pre University College	Madikeri, Karnataka
SSLC	*2018 – 2019*

Certifications

Java Full Stack Development, Besant Technologies

AI Tools & ChatGpt Workshop, BE10X
